SUMMARY

Software Engineer focused on building and deploying AI-powered applications. Experienced with Python and TypeScript across backend systems, integrations, AI agents, and modern React/Next.js frontends, with hands-on expertise in LLMs, fine-tuning, local inference, and end-to-end AI deployments.

WORK EXPERIENCE

-  **Co-Founder & AI Engineer, ThreebitAI** 2024 – 2026
 - Co-founded Threebit AI, delivering local LLM, RAG, and AI-powered software solutions from design to production deployment.
-  **Embedded AI & Sensor Design Researcher, Helmut Schmidt University** 2024 – 2026
 - Built an AI torque sensor model and deployed it on NI DAQ embedded hardware via a C++ inference server (LibTorch/TorchScript), with HTTP + WebSocket endpoints for real-time prediction streaming.
-  **Python Fullstack Freelancer - Upwork** 2022-2025
 - Built and deployed LLM-powered full-stack applications with RAG pipelines, fine-tuned DL models, and production APIs.
 - Integrated OpenAI, Hugging Face, and LangChain across Next.js frontends and Python backends with vector database search.
-  **Software Developer - ML Engineer, Wartsila GMBH** 2023-2025
 - Built an internal AI search platform with fine-tuned BERT and Elasticsearch, enabling semantic search over technical documentation and operational databases.
-  **Computer Vision Research Assistant, Fraunhofer** 2022-2023
 - Designed and developed a RESTful System API using Django, enabling seamless integration between the robotics perception pipeline and downstream operational systems.
 - Conducted comprehensive project analyses, identifying and rectifying discrepancies in engineering designs.

EDUCATION

-  **Master of Intelligent Systems and Robotics, GPA, 1.9** 2022-2025

Hamburg University of Technology
-  **Digital Industry - Internship** 2020-2021

Siemens
-  **Bachelor of Mechatronics Engineering, GPA, 1.2** 2016-2021

Cairo University

ADDITIONAL INFORMATION

- Technical Skills:** (Python, TypeScript) , (React/Next.js, Tailwind), (FastAPI, Flask, NestJS), (MongoDB, PostgreSQL) , (PyTorch, LangChain, ai-sdk, HuggingFace, VLLM), Docker, Git)
- Languages:** English, German (A2)
